Free samples Concrete admixture powder Polycarboxylate based superplasticizer

Introduction

Free samples Concrete admixture powder Polycarboxylate based superplasticizer is a new generation of Eco-friendly high performance polycarboxylate ether superplasticizer powder developed by our company with DD-909 (TPEG2400) as main raw material.

Characteristics

1) Polycarboxylate ether superplasticizer powder with solid content : 97% min. SPS-16 is an admixture to delay the hydration heat release rate, lower the ceiling temperature and decrease the cracks of thermal stress caused by concentrated heat release. 2)With a high slump retention ability, enhence cohesion, without concrete or mortar segregation. 3) With a good dispersion, an excellent adaptability to different cements, and good water-reducing properties. 4) Having a good

thermostability to 300℃ (one hundred degree celsius centigrade).

Application

1.It is used for gypsum based and cement based dry mix mortar. It can also be used for oil well cementing operation. 2.It is especially for cementitious self-levelling underlayments (SLU), plasters and masonry, non-shrink grouts, self-levelling floor screeds, repair mortars, injection mortars, dry mix concrete, tiles adhesives and joint fillers.

Usages and Cautions:

(1) A recommended dosage is 0.1%-0.8% by the weight of cementitious materials. Actual dosages should be determined by mixture design test according to concrete strength grade.

(2) Concrete test must be carried out before utilization.

(3) This product is forbidden to be mixed with naphthalene sulphonate.

(4) Compatibility test must be done when it is used together with other admixtures.

Shandong Zhuoxing Chemical Co., Ltd.
Zibo Zhuoxing Enterprises Co., Ltd.

Shandong ZhuoXing Chemical Co., LTD , located at Xinhai Industrial Park, Wudi County, Shandong Province, is a fine chemical enterprise with ethylene epoxide, propylene epoxide as main raw materials, our main products are non-ironic surfactants, such as polyether monomers, PEG (polyethylene glycol) series， defoaming agents, dispersants, emulsifying agents etc., meanwhile, we can provide chemical factory designation, equipment and automatic engineering installation. We have powerful technical support, technicians account for 20% of the total (more than 200 persons)staff, we have separated advanced equipped laboratories and pilots, which can provide products with the technical specifications indicated by our clients.
